Dear WYSL Club Presidents and Officials:

The Final Seedings for the Spring 2018 season are now complete and the scheduling process has begun.

Thank you for the thoughtful requests to amend the preliminary seedings. We carefully considered **every request** we received and were able to accommodate a majority of them. We could not make a number of changes for various reasons.

Check your teams to determine how they were affected by the changes. A significant change was made in the B9-Red. It is now a 10-team division, to accommodate some worthy teams. So Blue and White were combined into White, and Gold is now called Blue, and so on. The division names have changed but not the teams involved. Also G12-1 has gone from an 8 to a 9.

Preliminary scheduling will now take place and you will receive a copy to review. We expect the preliminary schedule to be released in two weeks.

Good luck and have fun this Fall!
